List of Tables
(continued)

Table		Page
5-5	Percentage of principals agreeing that their school has sufficient material resources.....	61
5-6	Percentage of teachers agreeing that they have sufficient textbooks for all of their students	61
5-7	Percentage of teachers agreeing that they have sufficient supplies and materials for all of their students	62
5-8	Percentage of principals evaluating the effect of quarterly milestone assessments with regard to reform efforts as good/great.....	64
5-9	Teachers' estimates of the average number of students they teach who receive special education services	65
5-10	Percentage of principals evaluating the supports to assist classroom teachers in including students with special needs in their classes as adequate to a good/great extent.....	66
5-11	Comparison of the percentage of principals and teachers reporting that various types of support are available.....	66
5-12	Percentage of principals indicating that various supports are available to assist classroom teachers regarding the inclusion of students with special needs in their classes	67
5-13	Percentage of teachers agreeing that the school system gave them the support they needed to include students with special needs in their classes	67
5-14	Percentage of teachers agreeing that the special education students benefited from being included in their classes	67
5-15	Percentage of teachers agreeing that the general education students benefited from the special education students being present in their classes.....	68
5-16	Percentage of teachers indicating they received training from BCPSS in teaching special populations.....	68
5-17	Average number of hours of professional development that teachers had regarding the inclusion of students with special needs in their classes in the last 3 years	69

TABLE OF CONTENTS
(continued)

List of Tables
(continued)

Table	Page
5-18 Percentage of principals evaluating the preparation of teachers to use new textbooks and curriculum and their value in meeting students' needs as good/great.....	70
5-19 Percentage of teachers indicating that their professional development activities through BCPSS have much or very much enhanced their students' learning in reading, reading, and mathematics	71
5-20 Average number of hours principals spent in the classroom in an average week	72
5-21 Percentage of principals and teachers agreeing or strongly agreeing that teachers used various approaches to convey expectations	73
5-22 Percentage of principals agreeing or strongly agreeing that teachers use various approaches to convey expectations	73
5-23 Percentage of teachers agreeing that they have a clear understanding of what they are expected to achieve.....	74
5-24 Percentage of principals indicating that the new promotion and retention policy is helpful to a good/great extent	83
5-25 Percentage of teachers indicating that the new promotion and retention policy is effective to a good/great extent.....	84
5-26 Percentage of principals indicating the efficacy of summer school and extended day programs was good/great.....	85
5-27 Percentage of principals indicating that summer school and extended day programs helped students to a good/great extent	85
5-28 Percentage of teachers indicating that the summer school and extended day programs enhance student learning to a good/great extent	86
5-29 Percentage of parents indicating the efficacy of summer school and extended day programs	86
5-30 Percentage of schools offering parent workshops on helping students with homework or test-taking.....	87
5-31 Percentage of parents participating in parent workshops on helping students with homework or test-taking.....	87
